

ADR70XD-LPR POWER PACK – TECHNICAL DATA

ADR70XD-LPR POWER PACK – TECHNICAL DATA

DESCRIPTION

The ADR70XD-LPR power pack is a portable, air actuated, double acting, “Xtra” pump with a low pressure return suitable for desert operation.

The Christie range of power packs are the toughest on the market, combining effortless power with supreme performance.

The unit is fitted with a “quiet air” silencer chamber to reduce noise output and remove the need for hearing protection. The air exhaust layout also acts as a temperature regulator in hot and cold climates.

The power pack is supplied complete with one control pendant / hose assembly and two hydraulic hose assemblies

The unit is operated using the two button control pendant.

SPECIFICATION

Air Consumption (In):	38-59 litres/second (80-125 cfm)
Maximum Air Pressure (In):	6.2 bar (90 Psi)
Maximum Hydraulic Pressure (Out):	690 bar (10,000 psi)
Pressure Gauge Units:	psi or bar
Flow Stage 1 (Out):	12 litres/minute (0.424 cfm)
Flow Stage 2 (Out):	1.7 litres/minute (0.06 cfm)
Oil Reservoir Capacity:	7 Litres (427.17 in ³)
Hydraulic Hoses Length:	4m
Total Weight (Excluding Hoses):	~39 Kg (85.98 lb)
Noise:	Less than 85 dB(A)
Hydraulic Port Size:	1/4" NPT

ACCESSORIES AVAILABLE

The following accessories are available upon request and can be custom made to suit requirements. Please contact W. Christie (Industrial) Limited for more information:-

- Extra Length hoses
- Protective storage case
- Portable trolley
