

Hydraulic Nut Splitters

Nut splitters offer the ideal 'cold cut' solution for removing worn or corroded fasteners (Ideal for applications where 'hot work' permits are not allowed).

Please contact us for further specification details and advice.

*Not all models are available for hire

The revolutionary design incorporates a hardened steel linkage that ensures the blade cutting edge is kept parallel to the nut throughout the splitting process which improves operational efficiency and more importantly, blade life.

- Capacities from 17mm to 75mm AF
- Working pressure 700 Bar
- Compact and easy to use
- Angled body design on all models
- Provides necessary clearance on flanges and flat surfaces
- Designed to split corroded nuts up to RC44 hardness
- Manufactured from high quality steel
- Unique 360° position swivel (on some models), for easy adjustment and fitment in confined spaces

Manually operated pump unit (steel construction) for use with Hydraulic Nut Splitters

Whilst every effort has been made to ensure the availability of the models and specifications within this catalogue, our policy of continuous improvement means specifications and models are liable to change without notice. We reserve the right to change the specifications and models available for sale or hire and to supply equivalent products where appropriate.
